

### **Annual Maintenance Contract (AMC) – Kavin Inc.**

At Kavin Inc, we take pride in enabling sustainable robotic performance through industry-grade service solutions. As an ABB Global Value Provider and expert system integrator, our AMC offering ensures your robotic systems operate with maximum uptime, precision, and long-term ROI.

No downtime – have us to support you anytime.

Our team of trained professionals is ready to assist you at every stage of robotic operations.

Our AMC Covers More Than Just Maintenance:

- **Robot Programming**  
Fine-tuning robot paths and sequences to suit new or changing production requirements.
- **Robot Weld Proving**  
Assisting in validating weld paths and sequences to ensure robust and repeatable joints.
- **Weld Parameter Setting**  
Optimizing current, voltage, speed, and gas settings to achieve superior weld quality.
- **Cycle Time Optimization**  
Enhancing process flow and robot efficiency to reduce time per part without compromising quality.

With Kavin Inc, your robotic cell doesn't just run it performs at its best.
